

Goal Setting Worksheet

Name _____

In the space provided below, write your goal decimal grade for this class. Be sure to take into account the number of credits you are taking, the number of hours you are working, and any other responsibilities you have.

Below your goal grade, list 4 specific things that you are going to do to earn this grade.

One of your items must include the percentages you need to earn on all your work to get that grade. (Example: To get a 3.5, you must average 90% on everything.)

Be specific! Do NOT just write "study"; list how you are going to study (read, do problems, etc) and for how long. Other examples: "Study with a group twice a week", "Do extra problems from the previous sections every night"

Goal Decimal Grade: _____

I will achieve my goal grade by doing the following:

1)

2)

3)

4)
