

# My Math Attitude Survey

Name\_\_\_\_\_

**Check all of the statements that are true for you.**

- I have always hated math
- I never expect to do well in a math course
- I have low math ability
- I have test taking anxiety in math
- I have not taken a math class in years
- I usually try to just pass a math course
- I stop working as hard after I do badly on a math test
- I have a very weak math background
- I tend to miss several classes especially on Fridays and before three-day weekends
- I rarely ask questions during class
- I typically get "lost" and can't think of specific questions to ask
- I do not complete the assigned homework until a few days prior to the test
