

The Body - Verbs Used with Different Parts of the Body

Directions: After you teach body parts, work with the following verbs. Pre-teach them using TPR. Make a list of the verbs on the board as you teach them. Have students put the verbs in categories by body part. You can also play charades, or have Ss ask each other questions, write sentences, or label a picture of a body to expand this activity.

VERB	BODY PART		VERB	BODY PART
blink	eyes		eat	mouth
