

## **Supplemental Materials**

I bring in lots of realia as supplemental materials for this unit. You can bring in real forms and applications from local grocery stores, clinics, etc. As a civics piece, I take the students to the library to get their King County Library cards. This process is particularly easy for Auburn Library and Algona-Pacific library students. As a final assessment for this unit, I have the students fill out the forms independently prior to going to the library. This is also a good time to setup a library tour with the KCLS staff. They are very accommodating and point out a ton of great resources for our students.
