Checking the Weather

Directions: You will check the weather report using Internet Explorer

1. Open Internet Explorer
2. Go to www.google.com
3. Put in the name of the city you live in as below:
Kent, WA weather
4. Find where it says Kent, WA weather 10 day. Select this and hit enter.
5. Write down the weather for your city today and tomorrow.

City	Today	Tomorrow
Kent	50 Rainy	51 Rainy

6. Look for the weather for another city (your hometown? Where your friend lives?) Write that information in the second box. Compare your answers with your classmates. Where is the hottest place today? The coldest?
