If Green River is closed on December 13 (the day of the final exam), I will
compute your grade based on the first three exams. Then, if you wish to try to
improve your grade, you’ll have the option to take the final exam sometime during
the first week of winter quarter. It will be your responsibility to contact me to
schedule it.

Note that this only applies if Green River is closed on December 13. If it is
open, the final will be given on that day as outlined in the course syllabus, even if
the school was closed on other days.
